### Segments:

RR - Varieties with the Roundup Ready® gene (RR) are resistant to labeled glyphosate herbicides. This technology allows for post-emergent applications of glyphosate herbicide without crop injury or stress (see herbicide labels). Labeled glyphosate

herbicides should only be used over the top of those varieties that carry the Roundup Ready gene designation. NOTE: A soybean variety with a herbicide resistance trait does not confer resistance to all herbicides. Spraying herbicides not labeled

for a specific soybean variety will result in severe plant injury or plant death. Always read and follow herbicide label directions.

® Roundup Ready is a registered trademark used under license from Monsanto Company.

STS - Varieties with the DuPont(TM) STS® gene are tolerant to Synchrony® STS®, Classic®, and Pinnacle®. This technology allows post-emergent applications of sulfonylureas (see herbicide product labels) without crop injury or stress. NOTE: A soybean

variety with a herbicide resistance trait does not confer resistance to all herbicides. Spraying herbicides not labeled for a specific soybean variety will result in severe plant injury or plant death. Always read and follow herbicide label directions.

DuPont(TM), STS®, Synchrony® STS®, Classic® and Pinnacle® are trademarks of DuPont or its affiliates.

SCN = Displays good to excellent resistance to soybean cyst nematode.

Insecticide Seed Treatment (IST) indicates an insecticide seed treatment was purchased on the seed. Potential insecticide seed treatments include Gaucho®. Purchased or applied to the seed.

Fungicide Seed Treatment (FST) indicates a fungicide seed treatment was purchased on or applied to the seed prior to planting. Potential fungicide seed treatments may include but are not limited to: Allegiance®, Apron® XL, Maxim\*,

Apron® Maxx, Apron® Maxx RTA, Captan\*, Kickstart\*, Protégé\*, SoyGard®, Rival\*, RTU\*, Vitavax 200\*, and Stiletto\*.

RR2 - Genuity™ Roundup Ready 2 Yield® soybeans contain the GENRR2Y trait. Provides tolerance to glyphosate herbicides.
